In addition, we provide O&M operations and maintenance) services to our projects to ensure project ability durability and extended lifetime value of our projects

OUR SOLAR SITES

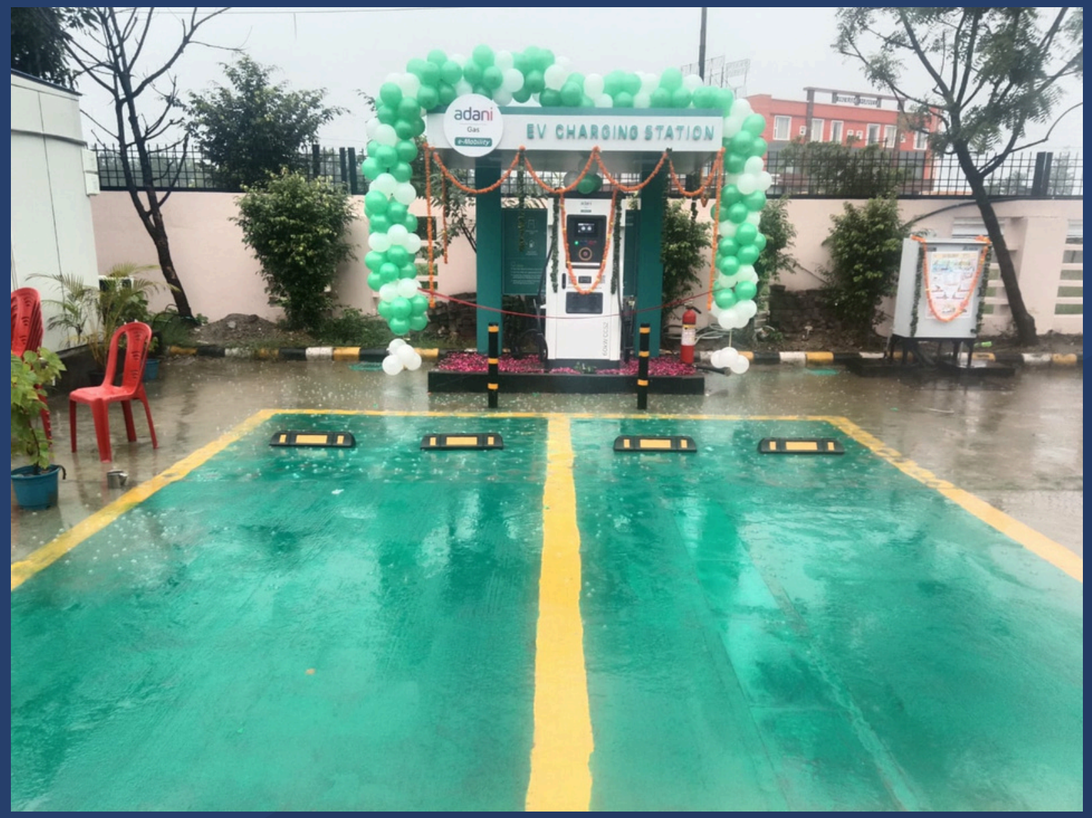

E.V. CHARGING STATION

H.S. Power Services is a dedicated business platform focused on enabling reliable infrastructure for electric mobility by providing 30 kVA to 60 kVA fast-charging EV stations. The company aims to bridge the gap in accessible, high-capacity charging solutions, supporting the rapid adoption of electric vehicles across urban and semi-urban regions. In collaboration with major industry players such as Adani and WeGreen, along with NRN, H.S. Power Services is working toward building a sustainable and scalable EV ecosystem. Their solutions emphasize efficiency, reduced charging time, and long-term environmental benefits, contributing to India’s transition toward clean energy and green transportation.
